Joshua Sluder, Utilities Manager

---

## **Residential Irrigation Meter Information**

King William County offers residential irrigation meters to homeowners who would like to measure outside water use. The irrigation meter would separate your inside and outside water use saving you the cost of wastewater treatment.

- The cost of a **5/8" Irrigation meter** is **\$284.92**.
- A **plumbing permit** also has to be pulled through our Building Services Department located at our Administration Building.
- Plumbing must be installed per the attached irrigation meter specification form attached.

### **Complete the following steps once the plumbing work has been completed:**

1. Call the Department of Building Services at **(804) 769-4969** within 72 hours of installation to schedule a plumbing inspection (permit # will be needed). Inspections are only done Monday through Friday between the hours of 10:00 AM and 2:00 PM (we do not guarantee times). This inspection has to be approved before you can move on to the next step.  
Starting January 1, 2023, persons testing and repairing backflow prevention assemblies and backflow prevention devices shall be certified by a Commonwealth of Virginia tradesman certification program (identified by DPOR as backflow prevention device workers). Until January 1, 2023, persons testing and repairing backflow prevention assemblies and backflow prevention devices shall be qualified to perform such work as demonstrated by possessing a certification or license from a local or state agency having legal authority or shall possess a certificate of completion of applicable vocational training acceptable to the owner.
2. Once your plumbing inspection is complete, call the Utilities Department at **(804) 769-4958** to schedule a meter installation (*our technician will set the actual meter*). Meter installations are done Monday through Friday between the hours of 8:00 AM and 2:00 PM.

If you have any further questions please feel free to contact the Utilities Department at **(804) 769-4958**.
