Featured News

May is Mental Health Month

Autism spectrum disorder (ASD) is a neurological and developmental disorder that affects how people interact with others, communicate, learn, and behave. People of all genders, races, ethnicities, and economic backgrounds can be diagnosed with ASD. Although ASD can be a lifelong disorder, treatments and services can improve a person's symptoms and daily functioning. [Learn more at the National Institute of Mental Health website.](#)

Real Estate Tax Update

2022 Land Books have been posted

"Brooks" is a dapper male Hound who's about 1 year old and weighs 55lbs. He came to the Shelter after he was found at someone's home. He's a very nice boy that gets along well with other dogs and doesn't mind cats. He is heartworm negative and on monthly prevention.

"Foster" is a cute male Mountain Cur who's about 3 years old and weighs 30lbs. He was surrendered to the Shelter because his owner could no longer care for him. He's a sweet and happy boy that would love a large yard to play in! He gets along well with other dogs and didn't seem to mind cats.
